

## For Immediate Release

**11<sup>th</sup> July 2008**

### **PRESTIGIOUS QUALIFICATION GAIN FOR FINANCIAL PLANNER**

Brian Foster of Critchleys Financial Planning has become one of only 800 people in the UK to hold the prestigious Certified Financial Planner™ licence. This flagship qualification of the Institute of Financial Planning puts Brian at the top of his profession. The rigorous requirements of the licence, which must be renewed annually, combine experience, in-depth technical knowledge, ethical behaviour and ongoing educational activity.

In common with other Certified Financial Planner™ licensees, Brian takes a broad-based, holistic approach. His expertise encompasses tax planning, employer benefits, retirement planning, estate planning, investment management and insurance.

Brian works closely with clients to establish their financial goals, their attitude to risk, and their timescale for achieving results. And because, he works on a strictly fee basis, he isn't swayed by the commission he can earn when recommending products or strategies. Brian's advice is genuinely independent, and based entirely around clients' needs.

Jason McGuigan, Brian's business partner comments, *"It is a great achievement for Brian to gain this internationally recognised qualification. To now have two planners in our practice holding this award is a true demonstration of our commitment to providing financial planning advice at the highest level"*.
